

## :: Klarlack-Spray

clear-coat spray

### CHARACTERISTICS

Clear Coat Spray is a durable, high-gloss, acrylic-based transparent enamel. This all-weather product also dries quickly.

### APPLICATION

Clear Coat Spray can be applied to nearly all surfaces (wood, metal, acrylic paint). Not suitable for use on pure white surfaces.

### PRODUCT DATA

Material data:

Color: transparent-shining

Specific gravity: 0.751 g/mL

Solids by volume: 16 %

Recommended coat thickness: 75 µm wet, 35 µm dry

Theoretical coverage: 400 mL = 1-2 m<sup>2</sup>

Drying time (20°C): Approx. 60 minutes

Recoat time (20°C): 10 minutes or when hardened (2-3 hours)

stability in storage (20°C): 36 month

### HANDLING

The surfaces to be coated must be clean, dry, and free of rust, grease and oil. Shake the spray can well for at least 3 minutes before use. Spray from approx. 20-30 cm (10-12 in) away from the surface. Apply thin coats in steady, even up-and-down and side-to-side movements.
